Professional Experience

Educhain

Sep 2024 – present

Frontend and Blockchain Developer

- Built decentralized applications (dApps) using Solidity for smart contract development.
- Designed and developed responsive user interfaces with ReactJS, Tailwind CSS, and TypeScript.
- Implemented blockchain integration, ensuring secure and seamless communication between smart contracts and the frontend.
- Collaborated with team members to deliver innovative solutions for education-related blockchain platforms.
- Conducted testing and debugging to enhance smart contract functionality and UI performance.
- Maintained a clean, scalable codebase while adhering to best practices in web and blockchain development.

TCU

Jun 2024 – Sep 2024

Frontend Developer

- Built engaging and responsive user interfaces to enhance user experience.
- Developed a demo waitlist application, ensuring seamless functionality and user engagement.
- Collaborated with team members to brainstorm and implement innovative frontend solutions.
- Improved web performance by optimizing code and implementing best practices.
- Integrated APIs to enhance app functionality and ensure smooth data flow.
- Conducted regular testing and debugging to maintain application quality and reliability.

Qruzpay

Jan 2022 – Sep 2023

Frontend Developer

- Developed and maintained user-friendly web interfaces using modern frameworks like ReactJS and NextJS.

- Collaborated with cross-functional teams to implement responsive and intuitive UI designs.
- Optimized web performance and ensured compatibility across various devices and browsers.
- Enhanced user experiences by integrating APIs and managing state with tools like Redux or Context API.
- Contributed to scalable codebases by adhering to best practices in coding and design.

Skills

• ReactJS

• NextJS

• Typescript

• JavaScript

• Solidity

• NodeJS

• ExpressJS

• CSS

• TailwindCSS
